Industrial visit to TATA MOTORS, Lucknow organized by Mechanical Department for 5th Sem students

Dear Sir/Madam,

Coming together is a beginning, keeping together is progress and working together is success. - Henry Ford

Greetings!

Industrial visits always bridge the gap between educational institutes and industries. In this context, SISTec, organized an industrial visit to TATA MOTORS, LUCKNOW for the students of Vth Semester Mechanical Engineering, on 22nd Nov 2016.

This is the first ever out-state industrial visit for the students.

The Lucknow plant is spread over an area of 600 acres and manufactures mainly multi axle trucks and buses.

The students were accompanied by Prof. Sanjay Chhalotre, Mechanical Engg. Department, SISTec Gandhinagar and Prof. Rupal Jyotishi, CRO SISTec E.

Students were brief about the plant by Mr. Sayed Usmani, Senior Engineer Tata Motors, and then taken to the assembly line.

The students observed and understood each and every process from the BIW (Body in White: initial stage of automobile body welding), manufacturing to quality control and testing.

The plant has two assembly lines which produce Multi axle trucks. These trucks can have three or rarely four axles. The multi axle system is incorporated to sustain heavy loads and to accommodate extra equipments.

The students got the glimpse of manufacturing processes carried out on a large scale. The practical exposure not only enhanced their knowledge but also motivated them towards more innovative ideas.

The HODs, faculties and students of SISTec are grateful to Mr. Pawan Grover, Executive Director, Dr. Manish Billeore, Principal and Dr. Swati Saxena, Vice Principal for providing this opportunity to visit India’s largest automobile company.
